

CARMEL VALLEY
naturals

handmade using nature's best

2006-07 Product & Price List

Natural Beauty from Natural Ingredients

Carmel Valley Naturals was founded with the goal of formulating products using natural body-friendly ingredients. We are subject to so many toxins in our normal daily life that avoiding them in skin care products is one way of giving your body a nourishing treat.

No artificial colors or fragrances are used in any of our products. Preservatives are used only when necessary to provide a safe product. All products are handmade using only the finest raw materials available, selected for the benefits they offer.

Taking care of your skin and body is not really pampering yourself. Exfoliation boosts the skin's natural rejuvenation by sloughing off dry skin. Well-made soaps are nourishing and moisturizing to your skin. Bath salts draw out toxins and stimulate circulation. Essential oils are used in aromatherapy for their healing properties as well as their ability to calm, energize, nourish and balance.
