

Photography is Susan's career and passion. She first fell in love with photography while attending the Academy of Art of San Francisco.

Susan is romantic at heart, so wedding photography was a natural choice.

Susan is known for her photojournalistic style, sensitive, romantic portraits—her graceful poses, natural expressions, and fun-filled candid. Her eye for beautiful light, composition and detail, and state of the art equipment, create photographs that capture the unique flavor and richest moments of your wedding.

Susan will never over-direct you to recreate a moment, but captures you and your guests' true emotions without monopolizing your time.
